

IMIS Global Limited

Press release

Date December 2007

IMIS Global Limited has completed the delivery of a national AIS network for IMIS Hellas in Greece. IMIS Global Limited is a part owner of this system and provides operational and technical support.

The AIS network in Greece consist of more than 40 **MariWeb™** AIS receivers connected to a **MariWeb™** Central Data Server [CDS] with all the **MariWeb™** modules that enable a full web enabled Maritime Exchange to be operated in Greece.

The system includes the **MariWeb™** Event Manager [MEM] and **MariWeb™** Archive Server [MAS].

This system was delivered after two full features IALA A-124 compliant AIS network were delivered for the Aegean and Elefsina projects completed in partnership with Kestrel, the local IMIS Global Limited partners.

IMIS Global
