

IMIS Global Limited

Press release

Date 15 July 2009

IMIS Global Limited has completed the installation and testing of the AIS Portal in Athens Greece for IMIS Hellas.

The AIS Portal will assist the users of ferries in Greece to determine where the ferries are and also allow them to call an Automatic Voice Response [AVR] system to obtain the latest arrival, departure and positional information on any active ferry.

The AIS Portal was developed by IMIS Global Limited from a product brief provided by IMIS Hellas.

Users can subscribe to free and 'Paid For' services by registering and using the eShop that is included in the AIS Portal.

The AIS Portal has all of the features required to operate a full features Maritime Exchange including a comprehensive reporting capability and Web Services.
