

IMIS Global Limited

Press release

Date **October 2006**

IMIS Global Limited has completed the delivery of the **San Francisco Bay Marine Exchange [SFMX] Maritime Information Management System [MIMS]** based on the IMIS Global Limited **MariWeb™** AIS network system.

This mission critical **MariWeb™** system allows SFMX to:

- ∴ Detail all arrivals and departures plus all internal shifts
- ∴ Manage contacts with the port community
- ∴ Provide open interface data feeds to third parties
- ∴ Accept open standard data feeds from third parties
- ∴ Allow multiple users, using a standard Internet browser, to access the system from any local on a global basis with total security
- ∴ Automatically create and generate reports that are automatically emailed or faxed to the port community

A GSM messaging system is included to ensure that alerts generated can be sent to selected users on the mobile telephones as a text message.
